

AINNA

AI Infrastructure & Business Operations

SOVEREIGN AI FOR REAL OPERATIONS

AINNA is a Malaysian technology company founded in Melaka in 2019. We build practical AI infrastructure and operational systems from real-world experience across e-commerce, finance, inventory, logistics, and business operations.

FOUNDED

Systems

BUILT WITH OUR OWN AI AGENTS

Use AI agents to support
analysis, automation, and
execution.

Important decisions still
rely on validated data and
human review.

Built from real operational
experience, not just theory.

AINNA NeuralOps
AI operating infrastructure for
routing, automation, and
detached systems.

AINNA Finance
Financial data infrastructure for
bank statements, records, and
financial reporting.

Lower
